Club boards find sponsors with the phone book, gut feeling and mass letters.

1. **No time**
   Volunteers do this in the evening.
2. **No know-how**
   Whom to ask, how, and for how much?
3. **No continuity**
   Contacts leave with the board.

Engineering

Developer with a background in IT security and AI engineering.

1 **AI makes research affordable**

Cents per business, not an agency fee.

2 **Clubs grow, volunteers shrink**

They need tools that save time.

We're looking for pilot clubs and a first association partner.
